## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Michael F. Morano on 7/12/2006.

In the claims:

Claim 1 line 4, replace "a boundary pixel" with --boundary pixels--,

line 5, replace "a non-boundary pixel" with --non-boundary pixels--,

line 6, replace "pixel" with --pixels--,

line 9, replace "pixel" with --pixels--,

line 11, replace "pixel" with --pixels--,

line 13, replace "the boundary pixel" with --each boundary pixel--, and

line 15, replace "the non-boundary pixel" with --each non-boundary pixel--.

Claim 3 lines 2-3, replace "the pixel electrode" with --a pixel electrode--, and

line 3, replace "the boundary pixel" with --a boundary pixel--.

Claim 4 line 2, replace "the pixel electrode" with --a pixel electrode--, and

line 3, replace "the boundary pixel" with --a boundary pixel--.

Art Unit: 2629

Claim 5 lines 2-3, replace "the pixel electrode" with --a pixel electrode--, and

line 3, replace "the boundary pixel" with --a boundary pixel--.

Claim 12 line 3, replace "a boundary pixel region" with --boundary pixel regions--,

lines 3-4, replace "a non-boundary pixel region" with --non-boundary pixel regions--,

line 7, replace "the boundary pixel region" with --each boundary pixel region--,

line 7-8, replace "the non-boundary pixel region" with --each non-boundary pixel region--.

Claim 15 line 2, replace "the boundary pixel" with "a boundary pixel".

Claim 16 line 2, replace "the boundary pixel" with "each boundary pixel", and

line 3, replace "a non-boundary pixel" with "each non-boundary pixel".

### ***Allowable Subject Matter***

2. Claims 1-16 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The invention is directed to a thin film transistor liquid crystal display of a line inversion type for block-driving data lines provided to prevent a block defect due to the block-driving. The TFT-LCD includes an extension part overlapping with a pixel electrode of boundary pixels at a boundary data line applying a data signal to the boundary pixels.

Independent claim 1 recites the uniquely distinct features "a plurality of data lines formed corresponding to the pixel electrodes and comprising a boundary data line

Art Unit: 2629

provided corresponding to the boundary pixels and a non-boundary data line different from the boundary data line corresponding to the non-boundary pixels; wherein the boundary data line has an extension part overlapping a portion of the pixel electrode corresponding to each boundary pixel, and the non-boundary data line does not include an extension part overlapping a portion of the pixel electrode corresponding to each non-boundary pixel.”

Independent claim 6 recites the uniquely distinct features “wherein the TFT-LCD further comprises at least one of the plurality of data lines having an extension part overlapping at least one of the plurality of pixel electrodes of a boundary pixel to substantially minimize a block defect.”

Independent claim 12 recites the uniquely distinct features “a plurality of data lines comprising a boundary data line overlapping the pixel electrode of each boundary pixel region and a non-boundary data line different from the boundary data line provided corresponding to each non-boundary pixel region.”

Song et al. (US 6,313,889 B1) teaches a TFT-LCD wherein each data line has a connect portion overlapping with each pixel electrode. Song’s “block” is limited to one data line. In other words, Song does not teach the above claimed non-boundary data lines and non-boundary pixels/pixel regions or the extension part overlapping the boundary pixels/pixel regions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
